# Experience Sharing From Partners

“At PRIF, we take great pride in our enduring partnership with the SM Sehgal Foundation. Over the past six years, this collaboration has been deeply enriching, marked by significant progress and shared dedication to the development of rural India. Together, we have advanced critical initiatives in water conservation, sustainable agriculture, institution building, and women’s empowerment—each yielding tangible, positive social impact. As you celebrate your 25th anniversary, we extend our heartfelt congratulations and wish you continued success in your pursuit of excellence.”

“We believe that First American (India)’s CSR partnership with the S M Sehgal Foundation is a commendable initiative that exemplifies the power of corporate-NGO collaborations in driving sustainable development.”

“Collaborating with the SM Sehgal Foundation to drive integrated village development has been an incredibly fulfilling experience. The commitment to sustainable growth and improving lives at the grassroots level is truly inspiring. We look forward to continuing our partnership in the future.”

“We are thrilled to have had the opportunity to partner with Sehgal Foundation, whose tireless work to empower farmers and enhance their livelihoods are truly commendable. Their dedication to rural development is inspiring and we are eager to continue our collaboration, driving meaningful change and sustainable growth together.”

“Congratulations on the 25th anniversary. I remember in 2007 when we started. It’s been 17 years that we have been working with Sehgal Foundation. What started with one village is more than 70 villages now. Like you know as corporates, we get our lives so busy with running the business, but to come and see how much people’s lives have been changed is heartening. We are looking forward to continuing this for many years to come.”

“Working with the SM Sehgal Foundation team has been an enriching journey. Their professionalism, coupled with their openness to integrating new ideas into action, is truly commendable. What stands out is their genuine commitment to the community, driving initiatives that extend their impact to a wide range of community groups. No matter the challenges faced, they find effective solutions that are best suited for the community and the environment. I wish them continued success in their mission to create lasting positive change in the communities they serve.”

Coca-Cola India has proudly partnered with the S M Sehgal Foundation for over 15 years, working together on transformative water replenishment projects that have impacted rural communities across the country. Their steadfast commitment to sustainability and rural empowerment has inspired solutions that address critical water needs. Together, we look forward to continuing our shared journey of creating lasting value and transforming lives for generations to come.”

“JK Tyre believes in the power of collaboration with other organizations to enhance the outreach and impact of our social initiatives. Our partnership with the Sehgal Foundation has been a shining example of this shared vision successfully working on a vital water conservation initiative contributing to sustainable development and improved community well-being. We extend our heartfelt congratulations on the occasion of their 25th anniversary. Their unwavering dedication to the social upliftment of communities is truly commendable, and we look forward to continued collaborations in the future.”

“The activities are well organized by S M Sehgal Foundation and the impact is visible on Women Farmers.”

Working with SM Sehgal Foundation on water conservation projects in Haryana over the past two years has been a privilege. The foundation's holistic approach, combining community engagement, education, and innovative solutions, has proven to be highly effective in addressing the water scarcity challenges faced by the local population. The collaboration with SM Sehgal Foundation has not only enriched our understanding of the complexities surrounding water conservation but has also allowed us to contribute meaningfully to the cause.

"On behalf of BMW India Foundation, we extend our heartfelt appreciation for your unwavering partnership over the past 5 years. Together, we have successfully installed 23 rainwater harvesting based drinking water systems across government schools in Gurugram and Nuh, significantly improving access to safe drinking water for students and enhancing groundwater recharge. Your dedication and expertise have been instrumental in driving this meaningful change, and we look forward to continuing our journey of making a lasting impact."

"We have been supporting S M Sehgal Foundation through the water conservation project in the water-stressed district of Kolar in Karnataka since 2022. Sehgal Foundation, as one of our CSR implementation partners, has been setting up water restoration and rejuvenation structures in the villages of Kolar. The project sustainability, which is essential to any project, is greatly visible by the adoption of natural assets by the villagers. We are delighted to be supporting the project and look forward to an impactful journey ahead."

The Publicis Sapient Grant Programme is only as good as its partners and we value our partnership, which has helped us contribute to make people thrive in one of the Aspirational Districts of India, Nuh. In the last 8 years, this partnership has helped nearly 110,000 rural citizens and small farmers, answered over 50,000 queries on the toll-free number, raised an army of more than 4300 change agents in 30 villages, and empowered nearly 400 elected women representatives. All this is possible only due to the vision of the founders to set up a professional non-profit, helmed by the most knowledgeable experts in every field and ensuring high governance standards, whilst ensuring the passion and commitment to strengthen community development in rural India remains the central focus. Congratulations on the 25th anniversary!

"In the past version of our partnership, jointly we worked with women farmers having small landholding and educated them about improving their livelihood through agronomical interventions. The kind of acceptance and respect Sehgal Foundation commands amongst rural communities is very remarkable.

In our current project, together we will show the benefit of improved crop nutrition and agronomic practices for enhancing incomes of the rural households around Alwar."

"Partnering with Sehgal Foundation has been excellent. Their ground-level dedication and community engagement have driven impactful results in our Punjab-based Crop Residue Management project, earning recognition at multiple forums.

I commend their commitment to environmentally sustainable nation-building initiatives and wish them continued success."

### John Deere India Pvt. Ltd

"Our partnership demonstrates our commitments to empower rural communities and has enabled us to reach to the resource constraint farmers and families, together we promoted sustainable agriculture and empowered farmers with improved agriculture methods, introduced package of practices to enhance the productivity and income of the farmers. S M Sehgal foundation work has been instrumental in enhancing the educational infrastructure and quality of education in the project areas. Effective collaboration, skilled and experienced professionals, dedicated efforts, are improving the lives of rural communities."

"We at Crossing Borders would like to congratulate and commend the S M Sehgal Foundation for the impressive achievements in building the capacity of rural women and empowering them to make their voices heard. This has enabled thousands of rural women to make a positive difference in their lives, the lives of their families, communities and India as a whole.
